

GLOBAL CONNECT

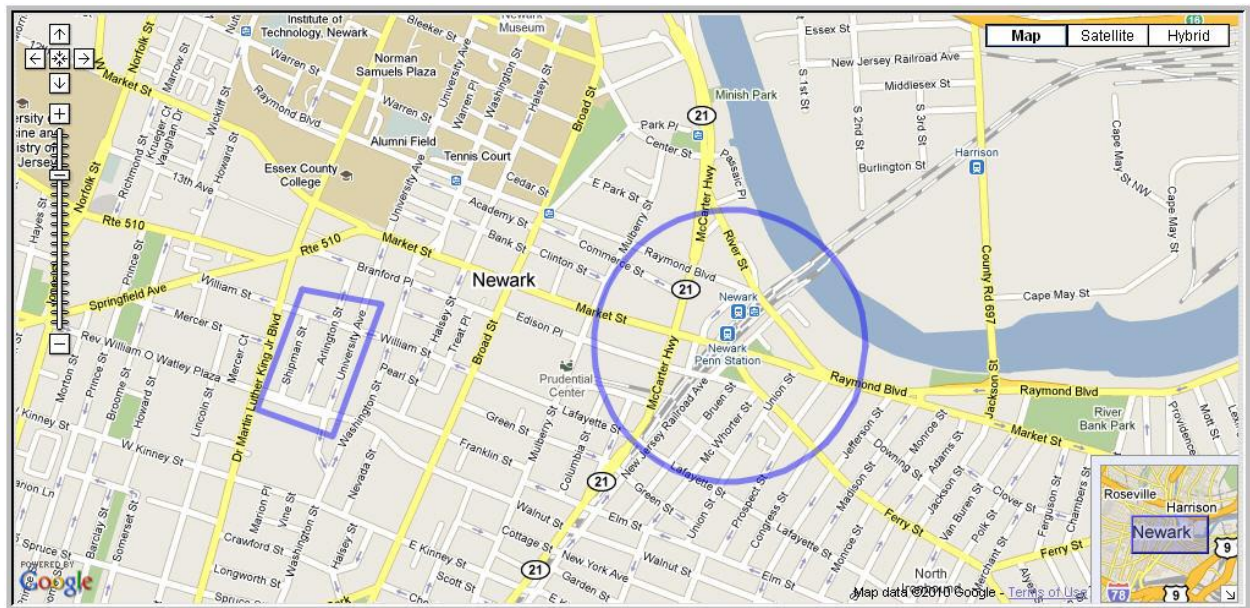

Emergency Notification System

The Global Connect Emergency Notification System is a reverse 911 service that provides fast and reliable notifications to community residents, businesses, and emergency workers.

The Global Connect system is web-based, so there is no equipment, software, or telephone lines to purchase. Emergency directors can access the system anytime, anywhere, to quickly broadcast high volumes of phone calls, emails, and text messages to their communities and their emergency workers. Targeted call lists can be set up in advance, or created on the fly by simply circling the targeted areas on a map.

The system is offered only to the government market and is designed to meet the needs of emergency teams in states, counties, and municipalities.

Now, more than ever, it is crucial for leaders to have an Emergency Notification System in place. Global Connect looks forward to helping you protect and serve.

Features

UNLIMITED SYSTEM USAGE / FLAT ANNUAL FEES – No matter how many broadcasts sent, numbers dialed, duration of calls, speed of delivery, or emails sent, Global Connect's system is provided at a flat annual fee.

FREE TRIAL PERIOD (with no obligation) – Global Connect removes the risk of choosing an Emergency Notification System (ENS) and saves municipalities up to 75% in the first year and considerable savings into the future.

HIGH SPEED – Make thousands of phone calls per minute.

RELIABILITY – The Global Connect system includes redundancy at every level, including multiple data centers, servers, and telephone providers. All emergency broadcasts are monitored by live operations staff 24x7x365 to assure notifications are delivered as scheduled.

MULTIPLE MESSAGE FORMATS – Rapidly send emergency calls or general notifications in multiple message formats.

Voice – Include up to 6 phone numbers per employee. Call residents on both landlines and cell phones. Programmable to deliver messages to live answers and answering machines.

E-mail – Include up to 3 attachments per message.

Text message – Reaches residents on the go who want to stay informed.

MAPPING – Quickly create call lists for zones in your community by circling locations on a map.

RADIUS MAPPING – Send calls to zones within a certain distance from a center point.

RESPONDER COUNT – Stops calling workers after the designated number of respondents have accepted the shift. Eliminate thousands of man-hours by automating over time calls for open shifts.

DIRECT CONNECT TO DISPATCH – Residents may press 9 on their phone to link directly to your command center.

INSTANT WEATHER ALERTS – Automatically send severe weather announcements to those residents that have opted in.

MULTI-LINGUAL MESSAGING – Residents can hear messages in their primary language with the press of a key.

POLLING/SURVEYING – Receive immediate survey responses from community and staff via real-time reports.

SEND IT AGAIN – Automatically redial unconnected calls up to 10 times.

REAL TIME REPORTS – Instantly know which numbers are answered, not answered, busy, picked up by answering machines, or invalid.

SELF REGISTRATION – Residents can add their number to the calling database by using a web-based form on your municipal website.

ESRI MAP IMPORT – Import your existing ESRI shape files by into your site's Global Connect map.

AUDIT TAB – Oversee individual sub-account use and message activity.

REMOTE DEPLOYMENT – Launch calls from any computer with Internet access, or from any phone.

ENGLISH TO SPANISH TRANSLATION – Type your messages in English, and the system converts them to spoken Spanish in a natural-sounding voice for telephone notifications.

TRAINING AND UPGRADES – included.

CUSTOMER SUPPORT – 24x7x365 Live Help Desk and technical support included.

GSA Pricing

Global Connect charges a flat fee for each resident, business, or employee added to your calling database. There are no per-minute charges, set up fees, or minimums. The Global Connect system is web-based, so there is no equipment, software, or telephone lines to purchase or manage. Global Connect guarantees government purchasers will always receive the lowest price.
